EXPERIENCE

Iitihaasa — Web Developer Intern

19-october-2023 to Present

Developed backend features using **Node.js**, **MongoDB**, and **integrated APIs** to manage authentication and magazine data.

Enhanced website performance, improving response time by **30%**. Collaborated with frontend developers using **React** for seamless integration between backend and frontend systems.

Sumago Infotech – Industrial Training

4– July-2022 to 30 –August-2022

As a **Web Developer Trainee** at Sumago Infotech, I gained hands-on experience in **HTML**, **CSS**, **JavaScript**, **PHP**, and **jQuery**, while also exploring **Python programming**. During my training, I contributed to a **car rental service project** similar to Zoomcar, applying my newly acquired skills in front-end and back-end development to build responsive and user-friendly web interfaces.

EDUCATION

DR. D. Y. PATIL INSTITUTE OF ENGINEERING MANAGEMENT & RESEARCH, AKURDI —

Bachelor of Technology in Artificial Intelligence & Data Science

November 2023 – Present

CGPA: 9.07

Government Polytechnic, Jalgaon — Diploma in Computer Engineering

January 2020 – July 2023

Percentage: 87.49%

SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, PHP, and Android.

Databases: MySQL, SQLite.

Frameworks: Ajax, Bootstrap, Tailwind CSS

Web Design: HTML, CSS, and Figma.

Additional Skills: Problem Solving, Database Management, Operating System.

Achievements:

- Best Web Designer (Industrial Training): Aug 2022
- Codement Hackathon: Secured a position among the top 5 teams in a hackathon: Apr 2024
- Solved 250+ DSA Questions across different platforms.

PROJECTS

Expense Tracker

June 2023 –August 2023

Skills used: HTML, CSS, PHP, JavaScript, Bootstrap, Ajax, jQuery, MySQL

Introducing the **Expense Tracker**: A paradigm shift in finance management. It offers monthly and **yearly tracking**, **interactive graphs**, **group creation**, and seamless bank account integration. Moreover, users can effortlessly **download records in versatile PDF, Excel, and CSV formats**. Experience a new dimension in financial control.

Creative – Scrapyard

Feb 2023 –April 2023

Skills used: HTML, CSS, PHP, JavaScript, Bootstrap, MySQL

Introducing a groundbreaking web platform where creativity and sustainability converge. **Shop a diverse range of scrap products**, **unlock your artistic flair by transforming them into unique creations**, and seamlessly sell your handcrafted marvels – all in one place.

Quiz App

July 2024 – Aug 2024

Skills used: Node.js, Express.js, JWT (JSON Web Token), JavaScript, RESTful APIs, Hosting: Cyclic (for backend)

Developed a **Quiz app***with a secure backend and dynamic frontend. Created **RESTful APIs** for quiz data, user login, registration, and **JWT** token handling. Implemented **404 middleware** and hosted the backend on **Cyclic**. Built the frontend with features like **home page**, **login/sign up**, **persistent login**, quiz questions, and a **result page**, ensuring data persistence throughout.

Certifications:

- MERN Stack Development Training
Geeksforgeeks | Dec 2024
- Industrial Training in Sumago Infotech Pvt Ltd.
- C++, Java, Python.
- Android Development.
- Web Development.
